# DM 4410 P CDS 4000 Delegate Unit w/Fixed Mic 14.2 in. (36 cm)

#### Don't miss a single sound.

### Configuration

DM 4410 P

The DM 4410 P is a portable conference delegate unit perfectly suited for permanent meeting rooms or temporary discussion-style meetings. The unit features a built-in high-quality loudspeaker and a fixed 14.2 in. (36 cm) gooseneck microphone with illuminated red ring to indicate microphone ON status. Each unit enables participants to speak, register a request-to-speak and listen to other speakers. The unit can either be controlled by the delegate by the microphone button or remotely by the operator/conference chair. The microphone button has two LEDs to indicate whether the unit is on (RED) or in the request-to-speak queue (GREEN). The loudspeaker is automatically switched off when the microphone is activated to prevent acoustic feedback. A 6.6 ft. (2.0 m) cable is permanently connected to each unit to allow for quick and easy installation of units.

## Highlights

- Illuminated red ring for easy speaker identification, clearly visible even in broadcast lighting.
- Push-to-talk operation introduces structure to the meeting.
- "Daisy Chain" loop-through cabling.
- No pick-up of mechanical table noise through proprietary double rubber band capsule suspension.
- Elegant, unobtrusive, black units.
- Different operating modes with request-to-speak queuing.
- Affixed cable with robust connector.
- 3.0 in. (76 mm) high quality loudspeaker in unit.
- Conference units are hot swappable.

	Specifications	DM 4410 P
Audio	Loudspeaker Frequency Response	150 Hz - 15 kHz
	Loudspeaker diameter	3 in. (76 mm)
	Loudspeaker maximum power	0.5 W RMS
	Microphone Frequency Response	100 Hz - 15 kHz
	Microphone Sensitivity	-22 dBv/Pa
	Microphone Max. SPL	125 dB (3% THD)
	Microphone equivalent noise	Approx. 20 dB SPL
	Microphone Front/Back ratio	>20 dB (1 kHz)
Controls & Indicators	Microphone Button	Red/Green LED; red indicates microphone is active, green indicates request-to-speak
	Illuminated microphone ring	Ring around the microphone head that illuminates bright red when the micro phone is on
Interconnections	CDS-chain Input	One (1) 6.6 ft. (2.0 m) cable with a male D-sub DB15 connector with optional screws
	CDS- chain Loop-through	One (1) female D-sub DB15 connector with locking mechanism and optional screw terminals to connect the next unit in the CDS chain.
Power	Power Consumption	0.5 to 1 W
		· · · · ·
Physical	Dimensions (H x W x D) (without microphone)	2.40 x 5.91 x 6.61 in. (61 x 150 x 168 mm)
	Microphone Length	14.2 in. (36 cm)
	Color	Black
	Unit Weight	2.0 lbs. (0.90 kg)
	Shipping Weight	3.0 lbs. (1.36 kg)
	Mounting	Tabletop (portable or semi-flush mounted)

## **Frequently Asked Questions**

Q How many microphones can be connected to a single CU 4005? A 50.

 $\bigcirc$  How far can the daisy chain cabling go?

A single extension cable must not exceed 330 ft. Maximum total cable length is 660 ft.

 $\bigcirc$  Can I mix and match different microphone styles with the system?

A Yes. You can mix table top units with flush mount units.

 $\bigcap$  Is the cabling proprietary cabling?

```
A Yes.
```

O Does the system work with third party control companies such as AMX or Crestron?

A Yes, however RS 4232 card is required.

O How can I use CDS 4000 for an Interpretation system?

A The CDS 4000 is a discussion system only. The mixed floor channel from the CDS 4000 will need to be connected to a separate Interpretation system.

 $\bigcirc$  Is it possible to have the loudspeaker active when a headphone is used on the CDS 4000 unit?

A There are no headphone outputs on the CDS 4000 microphone units.

Q What is the maximum number of chairman's units, which can be connected to CDS 4000 discussion system?

A Up to 10 chairman units can be active simultaneously in addition to the 6 possible active delegate units.

Are there any software applications that I can use with the CDS 4000 system?

A Yes, the SW 4210, 4211 and 4220. Features monitoring, microphone control, geographical/mimic display, etc. The software is functional in parallel with other control units such as the MC 4000 and external control systems. Note: The SW 42XX requires an RS 4232 interface card to be inserted into the CU.
